

List of longest films

This is an old revision of this page, as edited by Tassedethe ([talk](#) | [contribs](#)) at 18:48, 30 June 2018 (v1.43 - *Repaired 1 link to disambiguation page - (You can help) - Little Dorrit (film)*). The present address (URL) is a permanent link to this revision, which may differ significantly from the current revision.

This is a list of films whose running time exceeds 300 minutes (five hours).

Experimental films

While most cinematic films have a broad theatrical release in multiple locations through normal distribution channels, some of the longest films are experimental in nature or created for art gallery installations, having never been simultaneously released to multiple screens or intended for mainstream audiences. They may have been shown in venues where audiences were only expected to view a portion of the film during its screening.
