

List of tallest buildings in India

! This is an old revision of this page, as edited by [115.96.128.3 \(talk\)](#) at 13:44, 24 March 2018. The present address (URL) is a permanent link to this revision, which may differ significantly from the current revision.

This list ranks skyscrapers in India based on their official height.

Tallest buildings

The lists ranks buildings in India that stand at least 190 metres (623 ft) tall based on standard height measurement. This includes spires and architectural details but does not include antenna masts. Only completed buildings and under-construction buildings that have been architecturally topped out are included.
